

SUPERCAR LITES

Technical Bulletin

Number	020	Date	2021.01.01
Revision	001	Issuer	X
AEM 7" Colour screen			

AEM CD-7 Colour display.

We have decided to add a number of products as options in the future, the 1st of which is the 7 inch (17.8cm) full colour AEM Display above. It will come loaded with a set of pages for Supercar Lites, or it is fully programable by yourself after downloading the Software. An adaptor harness will also be available to plug directly into your existing Super Lites car harness.

It comes with 7 programable pages alarm function pages as well timing when used with VDM.

Please view the You tube video to fully understand its capabilities.

The unit comes in 2 different options Logging and non-logging of data from the ECU CD-7 and CD-7L

Part Number	Description	
OV9060	Display Kit, CD-7, Non- logging	
OV9061	Display Kit, CD-7L, Logging	
	Adaptor Harness SCL
